your smile is safe with us.

Our state-of-the-art offices are equipped with:
PPE for all employees, protective dividers between each station, an advanced air filtration system, and completely upgraded sterilization units.

Pre-appointment health screenings
We are also checking temperatures and reviewing any changes to covid screening upon arrival – face coverings required to enter office. Parents will remain outside office, when possible, to avoid additional people in the office.
We also have integrated a texting system to communicate with parents before, during and after appointments to create a safe and comfortable experience.

BACK TO SCHOOL PLANS
An overview of each district’s preliminary plans

SCHOOL DISTRICT AVON-BY-THE-SEA
SCHOOLS IN DISTRICT AVON ELEMENTARY
SCHOOL SIZE 140 students, 35 staff
PROPOSED SCHEDULE Avon Elementary School students will begin the 2020-21 academic year on Sept. 9, with on-site classes, five days a week, from 9 a.m. to 1 p.m., at full capacity, under a plan presented to school board members late last month. Parents retain the option of full-time remote learning.

PLAN PRESENTATION Superintendent and Principal Christopher Albrizio presented the plan on July 29, explaining that review and refinement would be continuing as guidance from county and state health officials evolves during the COVID-19 pandemic. He laid out three scenarios covering lowest, modest and high risk. The school will open under a modest risk scenario with small, in-person classes, activities and events, groups of students staying together with the same teacher throughout the day, not sharing objects and maintaining a six-foot social distance from one another.

SAFETY PROTOCOLS As required in New Jersey, students and staff will be required to wear masks indoors at all times. No lunches will be served.

REMOTE OPTION Individual students and parents will have the option of the lowest risk scenario, engaging in remote learning only.

SCHOOL DISTRICT BAY HEAD
SCHOOLS IN DISTRICT BAY HEAD ELEMENTARY
SCHOOL SIZE 466 students, 84 staff
PROPOSED SCHEDULE Belmar Elementary has proposed a hybrid model to start the school year where 50% of the students are in the school building for in-person instruction at one time on alternating days. This proposed schedule is intended for the first four weeks of school and means each student will be in school two days a week and learn remotely three days a week. The cohorts have already been selected for Mondays/Thursdays and Tuesdays/Fridays and can be found online in the school portal. Wednesdays will be virtual learning days for all students. According to the plan, on Sept. 28, the school may move to in-person instruction if it is safe to do so.

PLAN PRESENTATION The plan was posted to the school’s website on Friday, Aug. 7. The plan has been written in conjunction with school administrators, staff, members of the board of education and parents.

SAFETY PROTOCOLS Students will be in small cohorts and will not change classes. Students in
Brick Memorial High School
grades PreK-6 will be in self contained classes with the same teachers all day. Students in grades 7-8 will remain in the same class and the teachers will move for content subjects. Interventionists and specials will be integrated into the virtual school day. Screenings of students will be done at school entrances at the beginning of the day and depending on a student’s grade, they will be starting and ending the school day at varying times and using different school entrances. Arrival times range from 8:30 a.m. to 9:00 a.m. and dismissal times range from 12:45 p.m. to 1:00 p.m., depending on grade level. Students and staff must wear face coverings at all times and are required to wash their hands frequently during the school day. Barriers will be used if a classroom activity would be inhibited by the wearing of a facemask. There will be mounted hand sanitizer units mounted in every classroom. Desks will be kept 6 feet apart, lockers will not be used and classes will be held outdoors as much as possible is weather permits.

REMOTE OPTION Parents who do not want their child attending in-person classes had a Monday, Aug. 10 to inform the district of their intent to pursue remote instruction.

SCHOOL DISTRICT BRADLEY BEACH
SCHOOLS IN DISTRICT BRADLEY BEACH
ELEMENTARY
SCHOOL SIZE 253 students, 55 staff
PROPOSED SCHEDULE As the COVID-19 pandemic continues, students will be inside Bradley Beach Elementary School for five half-days a week, with no lunch period.

PLAN PRESENTATION During a board of education presentation on Aug. 3, which was given in English and Spanish, Superintendent Stephen Wisniewski told parents that the plan was “fluid” and open to change depending on shifting guidance from the New Jersey Department of Education. The plan, which was created by a 33-person committee, still needs to be approved by the district’s board of education, according to the superintendent.

SAFETY PROTOCOLS Students must comply with requirements for face masks, social distancing and health screening before entering the building each day. Students in pre-K through third grade would be screened at the school’s Hammond Avenue entrance and students in grades four through eight would be screened at the gym entrance.

Students in pre-K through grade three would attend school from 9 a.m. to 1 p.m. and students in grades four through eight would attend from 8:45 a.m. through 12:45 p.m. Staff members would be required to conduct at-home health screenings. Students who arrive at the school showing possible COVID-19 symptoms — headache, high temperature and coughing — will be sent to the nurse’s office in the former pre-K building. They will remain in isolation until they are picked up.

Symptomatic students and staff need to be quarantined for 10 days after being symptom free. COVID-19 positive students and staff need two negative tests and be fever free for up to 72 hours. If a student who had tested positive wishes to return to school, they need to have a meeting with the school nurse in order to be cleared for in-person attendance.

The district will move to a cohort model, meaning that groups of children will be put into groups. Students in cohorts, which can include up to 15 students, will remain together throughout the school day to limit contact between students in different classes. Class schedules will still include all of the student’s usual classes, such as English, social studies, science and math.

In the classroom, student’s desks will be spaced at a minimum of 3 feet apart. Small group instruction rooms will require a mask or plexiglass shield if social distancing is not an option.

No eating would be allowed at the school. Students who qualify for free or reduced would be able to pick up a grab-and-go meal as well as breakfast for the next morning.

A new cleaning schedule will be instituted, with nightly cleanings of classrooms, common areas.

REMOTE OPTION Students who do not feel comfortable coming to school could continue to do distance learning. Lessons would be recorded during the school day and teachers would edit video versions to send to at-home students. The district would take the attendance of students learning from home, based on the work that is completed.

The lessons will be sent to students by the end...
of the teacher’s workday, at around 3:20 p.m. and Teachers will also host daily Google Meets after in-person instruction office hours in order to answer questions or address concerns based on the previous day’s recorded lessons.

SCHOOL DISTRICT BRICK TOWNSHIP SCHOOLS IN DISTRICT BRICK MEMORIAL HIGH SCHOOL; BRICK TOWNSHIP HIGH SCHOOL; LAKE RIVIERA MIDDLE SCHOOL; VETERANS MEMORIAL MIDDLE SCHOOL; DRUM POINT ELEMENTARY SCHOOL; EMMA HAVENS YOUNG MIDDLE SCHOOL; HERBERTSVILLE ELEMENTARY SCHOOL; MIDSTREAMS ELEMENTARY SCHOOL; OSBORNVILLE ELEMENTARY SCHOOL; LANES MILL ELEMENTARY SCHOOL; MIDDLE SCHOOLS; HERBERTSVILLE ELEMENTARY SCHOOL; VETERANS MEMORIAL ELEMENTARY SCHOOL; AND WARREN H. WOLF PRESCHOOL

PROPOSED SCHEDULE A hybrid model dubbed “Brick and Click” by Superintendent Thomas Farrell calls for the majority of students to be divided among two cohorts that alternate between in-person and virtual learning Monday through Thursday, across all schools. Students enrolled in specialized programs, which include the district’s autism, bilingual and preschool programs, will receive in-person instruction Monday through Thursday. All students will learn virtually on Fridays. The exact schedule for each cohort has not been finalized but the school’s detailed 60-page plan shows proposed schedules. Siblings will be in the same cohort so they attend school the same days.

PLAN PRESENTATION Superintendent Thomas Farrell introduced the district’s new policies, which closely follow the preliminary model debuted at the July 16 school board meeting, in a video posted alongside the “Safe Restart Plan” on brICKschools.org.

SAFETY PROTOCOLS Students will be required to wear masks on the bus to and from school, when entering and leaving school and during any physical movement. Accommodations will be made per grade level for instructional purposes and face covering breaks will be provided. Accommodations will be made when needed in accordance with IEP, 504, IHP plans. All students and staff will have a temperature check upon entering their school utilizing a thermoscan thermometer and temperature kiosks. Students and staff members with a temperature greater than 100 degrees and/or responds yes to the two or more screening questions will be sent home and referred for COVID testing. Students and staff members will not be able to return until they have cleaned from a medical doctor or a doctor of osteopathic medicine. In the event of a positive COVID-19 test for a student or staff member, Brick schools will work with the Ocean County Health Department to determine and implement necessary actions including quarantine requirements and contact tracing. There will be increased cleaning and sanitizing protocols.

REMOTE OPTION As mandated by the state, any parent who does not feel comfortable sending their child back to school will have the option to register them for virtual learning.

Avon Elementary School

SCHOOL DISTRICT BRIELLE SCHOOLS IN DISTRICT BRIELLE ELEMENTARY SCHOOL SIZE 540 students, 63 staff

PROPOSED SCHEDULE Students will be divided into blue and gold groups. Blue students will attend school for in-person instruction on Mondays and Thursdays, and gold students will attend school on Tuesdays and Fridays. Each group will be expected to participate in remote learning while not in the school building. Blue and gold groups are mostly selected alphabetically, Superintendent Christine Carlson said, but there are some outliers. She also added that children from the same family will be in the same group. All special needs students and English language learners will have in-person instruction on Monday, Tuesday, Thursday and Friday.

The school day will begin at 8 a.m. and students will be dismissed at 1 p.m. Due to the early dismissal there will be no lunch, recess, before and after care, clubs or sports. After dismissal, all students will learn virtually for the remainder of the school day. Wednesdays will also serve as a virtual school day for all students, which will allow for a deep cleaning of the school building.

The plan is staged and the timeline of moving to the next stage, stage three, will be determined, but would allow for in-person instruction for preschool through third grade students, and would maintain the hybrid schedule for students in fourth through eighth grades. Stage four would allow in-person instruction for all students on an early dismissal schedule. The last stage of the plan is a return to a normal full day of school for all students.

PLANNED PRESENTATION Superintendent and Principal of Brielle Elementary School Christine Carlson presented the reopening plan during a virtual Board of Education meeting held on July 22. She, along with the board members, noted that the plan is “fluid” and subject to change as more guidance from the state is released.

SAFETY PROTOCOLS Upon arrival at school, students will have their temperatures checked by staff. Entrace and exits will also be designated by grade level. Students will then be directed to head straight to their classroom, where they will stay for the entire school day. Class sizes will be reduced to eight to 10 children, and students will be seated six feet apart in rows with plexiglass installed at each desk. All students and staff will be required to wear masks in the school building. Ms. Carlson said masks may be removed when students have their mid-morning snack and when they take a short break for social and emotional learning.

REMOTE OPTION As mandated by the state, any parent who does not feel comfortable sending their child back to school will have the option to register them for virtual learning.

SCHOOL DISTRICT LAVALLETE SCHOOLS IN DISTRICT LAVALLETE ELEMENTARY SCHOOL SIZE 143 students, 19 staff

PROPOSED SCHEDULE Lavallete Elementary will adopt a full-time cohort model by separating each class from all others while on school property. Children in grades K-4 will also have an abbreviated school day, arriving one hour later than grades 5-8 and departing one hour earlier at 2 p.m. The school will mitigate contact between cohorts with recess separation and restrictions on indoor traffic, including one-way paths and a one-cohort-in-half-way-limit “as much as possible.”

PLAN PRESENTATION Emails have been sent to parents and a virtual presentation is occurring this week, according to Superintendent Peter Morris.

SAFETY PROTOCOLS School staff, visitors and students will be required to wear facemasks unless doing so would inhibit the wearer’s health. Face shields are also available, according to the school’s official plan. Cafeteria, classrooms and other interior spaces have been configured and marked to allow for 6-foot social distancing. Hand sanitizer stations have been positioned “in key areas and classrooms,” and staff and students will view handwashing hygiene and respiratory etiquette presentations.

REMOTE OPTION Per the state-mandated opt-out, for families choosing full-time virtual learning, “specific staff have been designated as virtual facilitators.”
The plan presented by Kasyan said in the school tests positive for the coronavirus, Mr. Kasyan said.
The potential impact of a closure in the event someone
who has COVID-19 and visits a school building could also
be the virus.

The goal of grouping students into cohorts is that
rather than having the students move between
classrooms, they will stay in the same classroom
for the entire school day. However, classes will be self-contained
for the two periods. Students will be split into groups of
250 for two different lunch periods — 10:45 to
11:08 a.m., or 11:31 to 11:56 a.m. Lunch spaces will be
disinfected between the two periods.
Mr. Kasyan said serve-and-go lunches will be available
to all students daily and lunch spaces will be arranged in a way that maintains
social distancing. Students will have an opportunity to visit their
lockers before school, during lunch and after school.

Students at the elementary school will attend full-day sessions daily and follow the normal bell schedule. However, classes will be self-contained
for the entire school day.

Middle school teachers, special subject teachers
and interventionists will rotate between classes
rather than having the students move between
classrooms.

The goal of grouping students into cohorts is that
it will prevent intermingling and minimize the potential impact of a closure in the event someone
in the school tests positive for the coronavirus, Mr. Kasyan said.

**PLAN PRESENTATION**
The plan presented by Superintendent of Schools Frank Kasyan also
focused on new health and safety procedures that will
be in effect this September when students and
faculty return to school. Mr. Kasyan said the plan
is based on guidance from the state Department of
Education, Centers for Disease Control and
Prevention and the Monmouth County Department
of Health. The district has been preparing for a
return to school and in-person learning since April,
when administrators created the “return to school
roadmap” focusing on plans for reopening in
September and what steps need to be taken over
the summer. A restart committee, including Mr.
Kasyan, administrators, faculty and school board
members, also was formed.

**SAFETY PROTOCOLS**
To maintain social distancing
and minimize potential spread of the coronavirus
at both schools, desks will be six feet apart in
all classrooms. Social distancing markers/signs will
also be placed in hallways to establish a flow of
traffic. Mr. Kasyan said there will be 15 to 18 desks
per classroom and all unnecessary materials will
be removed from the classroom to allow for more
space. Face coverings must be worn by students
at all times unless social distancing of at least
six feet can be maintained — for example, when
students are seated at a desk in their classroom or
the cafeteria. Staff must also wear face coverings
at all times, unless while eating or unless doing
so would inhibit the person’s health. Mr. Kasyan
added that clear masks have been ordered for
teachers so students can see their faces while
they are in front of the classroom teaching.

Students and staff will be required to wash their
hands upon entering the school and regularly
throughout the school day with either hand
sanitizer or soap and water. Faculty and administration
will also monitor students for symptoms each
day as they enter the school buildings. To aid
in this endeavor, the district plans to purchase
two temperature sensors that can read students’
temperatures by scanning their foreheads or
wrists. According to Business Administrator Peter
Crawley, this will speed up the morning routine by
checking temperatures of 45 to 50 students per
minute. One sensor will be placed at a high-traffic
entryway at both the elementary school and
high school. Other entrances will be staffed with
nurses, security or administrators equipped with
forehead temperature scanners. Multiple entrances
will be used at each school to limit student contact.
Elementary school students must go directly
to their classrooms upon entering the building.
High school students will not be allowed to enter
the school before 7 a.m. After that time, students
will be directed to wait in designated areas until
school begins at 7:34 a.m.

Staff will also verbally check symptoms as
each student enters the school building. Anyone
exhibiting symptoms will be directed to a designated
isolation area. All staff will be trained to recognize
the symptoms of COVID-19, which will help
with symptom identification in students and allow
staff to self-monitor themselves for symptoms.
Any staff member exhibiting symptoms must leave
the school building.

Bathrooms will be disinfected hourly; classrooms
will be disinfected during the school day when
students go to lunch, and nightly; and all non-po-
porous surfaces and common touch points will
be sanitized and disinfected regularly.

HVAC systems will also be upgraded with MERV-10
filters, which provide the highest level of filtration
without restricting air flow.

**REMOTE OPTION** Any parent who does not feel
comfortable sending their children back to school
had the option to register for virtual learning
during the week of Aug. 3. Mr. Kasyan said a
remote learning plan would be created, as well
as an alternative plan for a districtwide switch to
remote learning in the event both school buildings
need to shut down again.

**SCHOOL DISTRICT MANASQUAN**
**SCHOOLS IN DISTRICT MANASQUAN**
**ELEMENTARY SCHOOL, MANASQUAN**
**HIGH SCHOOL**
**SCHOOL SIZE** 1,487 students
**PROPOSED SCHEDULE** The Manasquan School
District’s plan to reopen school in September,
includes a hybrid of in-person and remote learning
for high school students; and full-time, in-person
instruction for elementary school students.
The high school will adapt a blended learning plan,
dividing its 1,000 students into either a blue or
grey group of about 500 students each.
Each group will attend school on alternating
days. The blue group will go to school Monday,
Wednesday and Friday one week and then Tuesday
and Thursday the next week, while the grey group
maintains the opposite schedule.

When students are not physically in school, they
will be required to complete virtual lessons. They
will also have an opportunity to speak with their
teachers virtually during dedicated office hours.
The school day at the high school will consist of
eight 45-minute class periods and one 25-minute
period. Students will be split into groups of
250 for two different lunch periods — 10:43 to
11:08 a.m., or 11:31 to 11:56 a.m. Lunch spaces will be
disinfected between the two periods.
Mr. Kasyan said serve-and-go lunches will be available
to all students daily and lunch spaces will be arranged in a way that maintains
social distancing. Students will have an opportunity to visit their
lockers before school, during lunch and after school.

Students at the elementary school will attend full-day sessions daily and follow the normal bell schedule. However, classes will be self-contained
for the entire school day.

Middle school teachers, special subject teachers
and interventionists will rotate between classes
rather than having the students move between
classrooms.

The goal of grouping students into cohorts is that
it will prevent intermingling and minimize the potential impact of a closure in the event someone
in the school tests positive for the coronavirus, Mr. Kasyan said.

and interventionists will rotate between classes
rather than having the students move between
classrooms.

The goal of grouping students into cohorts is that
it will prevent intermingling and minimize the potential impact of a closure in the event someone
in the school tests positive for the coronavirus, Mr. Kasyan said.

**PLAN PRESENTATION** The plan presented by

recent announcement that all public schools must offer students an option for full-time remote learning for the 2020-2021 school year, in order to select this option, parents and guardians were asked to complete the Remote Learning Application online by Aug. 12.

**SCHOOL DISTRICT POINT PLEASANT BEACH SCHOOLS IN DISTRICT ANTRIM ELEMENTARY SCHOOL, POINT PLEASANT BEACH HIGH SCHOOL SCHOOL SIZE 750 students**

**PROPOSED SCHEDULE** Schools in Point Pleasant Beach will start the academic year on Sept. 8 with students in classrooms four days per week and learning remotely for a half-day every Wednesday. The high school and elementary school will follow the same day-to-day schedule but use different methods to keep students and staff safe. The high school will move to a full block schedule with students attending only three to four classes a day. Students will be dismissed for lunch in the middle of the day, allowing them to leave the building.

The high school will also use flex periods to limit the number of students in the building, in order to allow a late arrival or early dismissal for certain students each day.

G. Harold Antrim Elementary will use a different model, keeping students in their set classrooms and having teachers move between classes to teach different subjects, one of the recommendations from the CDC, Mr. Smith said.

Antrim will also eliminate locker use by students, and lunches may be eaten in classrooms to cut down on students walking through the school.

**PLAN PRESENTATION** The plan announced recently by the Point Pleasant Beach Board of Education and Superintendent William Smith, is designed to provide teachers with prep time during the week, as well as to give students a break from the stress of schooling during the pandemic.

“Our feeling with the four-day design is that it provides a consistent schedule for parents if Wednesday is always a half-day, remote-learning day,” said Mr. Smith.

**SAFETY PROTOCOLS** The school will follow strict cleaning procedures. Staff will clean touchpoints in the schools up to three times a day, along with regular daily cleaning. All students will be required to wear face masks while in school.

“We are absolutely convinced that masking students is essential and that folks who are not comfortable with that scenario should choose a remote option for the time being,” said Mr. Smith.

**REMOTE OPTION** Parents may still opt for their children to participate in a fully remote option, as allowed by the state Department of Education.

**SCHOOL DISTRICT SEA GIRT SCHOOLS IN DISTRICT SEA GIRT ELEMENTARY SCHOOL SIZE 161 students**

**PROPOSED SCHEDULE** The Sea Girt Board of Education has announced that school will begin on Thursday, Sept. 3 with students back in classrooms at full capacity, five half-days a week, with COVID-19 safety measures in place. Under this phase one, students will attend school from 8:20 a.m. to 1 p.m. The schedule will consist of six 42-minute periods.

Mr. Papera added that the schedule will be frontloaded with core classes including English language arts, math, science and social studies. After dismissal, students will have 50-minute lunch break and continue the school day virtually for special area classes. Services for special education students may be delivered in-person during that time as well.

Under phase two, students will attend full-day sessions from 8:05 a.m. to 3:05 p.m.

Mr. Papera said the school day will consist of a more typical schedule with eight 42-minute periods, and additional staggered lunch and recess times. There will be in-person instruction for special area classes under phase two, but teachers, rather than students, will travel between classrooms.

Phase three of the plan will be a return to normalcy with a typical schedule and relaxed social distancing rules when there is no threat of COVID-19.

**PLAN PRESENTATION** Superintendent Rick Papera presented the phased re-entry plan at the July 30 virtual school board meeting and it was formally adopted by the board at a special meeting on Aug. 6. The results of a stakeholder feedback survey, which sought input from the school community regarding the plan, revealed that 57 percent were in favor of beginning school at phase one while 43 percent preferred to begin with phase two of the plan.

**SAFETY PROTOCOLS** According to Mr. Papera, public health data will be collected daily and reported publicly at the Sept. 24 board meeting. The data will then be used to determine if the district is ready to enter phase two. Data will be collected based on the pre-screening questionnaire completed each morning before school.

Students and staff will need to complete a pre-screening at home before the beginning of the school day. Temperature checks will be conducted upon entry at an assigned entrance to the school building using infrared walk through temperature screeners and contactless thermometers.

All students and staff will be required to wear masks, however, Mr. Papera said there will be an opportunity for mask breaks and movement breaks during the day. Personal protective equipment will be available to students and staff.

Signs will be placed throughout the school to remind students to social distance and wash their hands. There will be additional hand-sanitizing stations located around the building, screen between sinks in the restrooms and plexiglass dividers where needed. The school building will be sanitized throughout the day and cleaned extensively at the end of the day. He added that the district is seeking additional custodial support to maintain the cleanliness of the building. To keep the building clean the district has electrostatic sprayers that spray viricide, portable UVC sanitizing equipment for classrooms and UVC sanitizing fixtures for restrooms to disinfect the room throughout the day.

Mr. Papera added that the HVAC filters will be replaced and upgraded throughout the year.

In classrooms, desks will be spaced six-feet apart and unnecessary furniture will be removed to allow for social distancing. Students will be placed in cohorts to minimize potential spread of the coronavirus. Outdoor spaces will also be encouraged when appropriate. The nurses office will be moved to a larger area in the building that will allow for quarantining, social distancing and prevention of cross contamination.

**REMOTE OPTION** As mandated by the state, parents who are uncomfortable or unable to send their children back to school may opt for virtual learning. Mr. Papera said the school will also utilize virtual learning if any students need to quarantine...
The plan was presented by Superintendent Stephen LaValva at a recent virtual meeting of the school board.

**SAFETY PROTOCOLS** The school building is able to house 100 percent of the students and staff if all attend in-person, Mr. LaValva said. However some teachers may be forced to move to new classrooms so the larger classes can utilize the largest classrooms. Only the school’s sixth grade class has a current enrollment of at least 20 students. A large tent has also been donated to the school, courtesy of the Giblin family, and will be used as an outdoor classroom, weather permitting.

The full details of the reopening plan are still being developed but will include some form of temperature screening for all students and adults entering the building as well as a requirement for face masks to be worn during most of the school day, with some scheduled breaks. Grades would likely be grouped together in “cohorts” or “pods” to minimize movement throughout the day.

Mr. LaValva said the administration and board will also explore the possibility of a “wrap around care” program, as the 12:40 dismissal may be difficult for some parents, due to their work schedules.

Additionally next month, old carpet is being removed from the third floor classrooms of the school to maximize cleanliness and the school’s HVAC system will undergo mechanical improvements “to ensure maximum air exchange” in the building.

**REMOTE OPTION** Parents who are uncomfortable with sending their child back to school for in-person instruction on Sept. 8 will have the option of remote learning, per state guidelines.

**SCHOOL DISTRICT SPRING LAKE HEIGHTS**

**SCHOOLS IN DISTRICT** SPRING LAKE HEIGHTS ELEMENTARY SCHOOL

**SCHOOL SIZE** 353 students, 54 staff

**PROPOSED SCHEDULE** The Board of Education has adopted a plan for students to begin classes at Spring Lake Heights Elementary School at full capacity, five days a week, starting Sept. 8.

**PLAN PRESENTATION** Superintendent John Spalthoff presented the plan, as well as the results of a district-wide online, during a school board meeting last month. The meeting was held via Zoom, with about 100 persons participating online.

Further discussion and details were expected at the next school board meeting, scheduled for Aug. 17, at 7 p.m. According to Mr. Spalthoff, the survey responses overwhelmingly favored reopening full-time at full capacity, with 75 percent answering “yes” and only 17 percent answering “no.”

**SAFETY PROTOCOLS** For those returning to school, masks or face coverings must be worn at all times when social distancing is not possible, and must be worn upon arrival to school. Most classrooms do not provide enough space for social distancing, so most students will wear masks at their desks. However, there are several large areas or classrooms where wearing a mask may not be necessary. Mr. Spalthoff said he is working with his administration to work “mask breaks” into the students’ schedules.

Students will enter the school through one of three doors, determined by the location of their homerooms. Instead of gathering in the gym in the morning, students will go directly to their homeroom.

All students and staff entering the building will have their temperatures checked by a SafeCheck walk-through body scanner, akin to a metal detector, Mr. Spalthoff said. Any individual with a temperature over 100.4 will be sent home. Any student or staff exhibiting COVID-19 symptoms will be isolated. A policy regarding the full protocol of how to handle individuals showing symptoms will soon be created by the school’s Pandemic Response Team.

Although all are encouraged to bring their own, the

Allenwood Elementary School

School will provide PPE to all students and staff. Middle school students will not use lockers this year, and movement will be limited as much as possible.

Lunch will be moved to the gymnasium where social distancing can be guaranteed, and where the district will add several more large rectangular tables for students. All lunches will be preordered and prepackaged.

Each classroom will be provided with hand sanitizer and signage is being placed on the floors and walls of the school to remind students of the rules. Bathrooms will be cleaned daily and water fountains will be shut off.

REMOTE OPTION A remote learning option is being offered to parents and students who were asked to designate their interest by Aug. 15. Mr. Spalthoff has said the fully virtual classes will be done by paying staff a stipend to work outside of their normal hours.

A virtual class will be available for each grade level of kindergarten through fifth grade, each middle school subject area, special education, physical education, art and classes. Virtual learners will be provided with Chromebooks by the school, and will attend live classes based on the teacher’s schedule.

If a student begins the year physically attending school and has to return home for an extended period, he or she will be transferred to the virtual classroom.

SCHOOL DISTRICT WALL TOWNSHIP
SCHOOLS IN DISTRICT WALL PRIMARY SCHOOL, WEST BELMAR ELEMENTARY SCHOOL, CENTRAL ELEMENTARY SCHOOL, OLD MILL ELEMENTARY SCHOOL, ALLENWOOD ELEMENTARY SCHOOL, WALL INTERMEDIATE SCHOOL AND WALL HIGH SCHOOL

SCHOOL SIZE 3,650 students

PROPOSED SCHEDULE The Wall School District has released a detailed Restart & Recovery Plan for opening schools on Sept. 8. Phase 1 of the reopening plan is expected to last for four weeks after school begins in September.

Wall Primary School will operate on its normal schedule, with students attending five days a week in either morning or afternoon sessions. All kindergarten-through-fifth-grade students in the district’s four elementary schools will attend five days a week, with arrival at 9:05 a.m. and early dismissal at 1:05 p.m.

Virtual learning will be integrated. All special-education compensatory services and general-education counseling services will be provided.

Secondary students at Wall Intermediate School and Wall High School will have a hybrid schedule, with two days of live instruction with teachers in their classrooms; and two days of remote, independent [asynchronous] learning at home.

The red cohorts will be in school on Mondays and Thursdays, and the blue cohorts will be in school on Tuesdays and Fridays. Intermediate students will arrive at 8:10 a.m. and have early dismissal at 12:20 p.m. High school students will arrive at 7:20 a.m. and have early dismissal at 11:45 a.m.

On Wednesdays, all students will learn at home with live [synchronous] virtual instruction.

PLAN PRESENTATION Superintendent of Schools Tracy Handerhan presented a broad outline of the plan during a special meeting of the Board of Education held virtually on July 28, and then on Monday, Aug. 3, posted a more detailed version of the plan on the district website, walla12.nj.us.

Ms. Handerhan stressed that the plan is “fluid” and may change according to health data regarding the COVID-19 pandemic at any given time.

SAFETY PROTOCOLS The plan states that all students and staff must wear face coverings in school unless medically unable to do so, in which case face shields and plexiglass barriers may be provided. Social distancing will be practiced; where that’s not possible, classes may be moved to a larger space such as gym or cafeteria. Face coverings also must be worn while on school buses.

Phase 1 does not include a lunch period, but grab-and-go lunches will be available to all students, including low-income students. Breakfast will be served at West Belmar and Central Elementary Schools.

At the elementary level, student movement will be minimized by having all special lessons pushed into the classroom. The use of shared objects will be minimized.

For social distancing, schools are to have multiple points of entry and exit, and hallways are to be single-directional. Occupied spaces are to have fresh-air ventilation with either air-conditioning or operable windows.

A digital health questionnaire must be completed daily by students and staff prior to arrival at school, and temperature checks for students and staff will be conducted upon entry.

Any student exhibiting symptoms will be directed to an isolation space until picked up by a parent. District officials will notify the Freehold Area Health Department of anyone who has tested positive for COVID-19, and contact tracing will be conducted.

In addition to the regular daily cleaning, there will be extra daily high-touch-surface sanitizing of such items as computer keyboards, desk tops, door knobs, faucet knobs, fitness equipment, flush valves, toilet stall doors and latches, light switches and office equipment.

Playground equipment may not be used during recess, in which groups will be staggered. Mask breaks may be given when all students and staff are appropriately socially distanced outdoors.

Physical education classes will be held outdoors, weather permitting and without shared equipment. Locker rooms will be closed, and so students should wear comfortable clothing and safe footwear to school.

The district will supplement any gaps in students’ access to technology devices and internet connectivity.

The district’s Wrap-Around program will offer child-care services to elementary students from 7 to 9 a.m., and from 1:05 to 6:15 p.m., and flexible drop-in care will be offered. School officials also are communicating with local private child-care programs about providing resources to parents.

The Restart & Recovery Plan posted on the website also has a FAQ tab that answers many questions people may have about the all-virtual option, academic concerns such as SATs and vocational classes, the health screening and notification process, PPE supplies, ventilation and cleaning, as well as a selection of health studies regarding COVID-19 and The Road Back guidance issued by the state Department of Education.

REMOTE OPTION The remote-only option will be a hybrid model of virtual, live instruction by teachers and independent learning.

“A student participating in the remote learning option will be afforded the same quality and scope of instruction and other educational services as any other student,” according to the plan.

Students will have the option of transferring in or out of virtual-only school on specific dates.
Dear Wall Township Families:

With the 2020-2021 school year upon us, I welcome this opportunity to convey how excited I am to be working with you. Despite the unprecedented challenges in planning for the reopening of schools, these circumstances have afforded me the opportunity to hit the ground running and engage in many very thoughtful and productive interactions with members of the Wall Township community. I am pleased to share with you how fortunate I feel to join such a dedicated and caring team.

When I started kindergarten in 1976 my only concern was selecting a nifty lunchbox and my special snack for the first day (back then, Tastykake Butterfingers and Krimpets were the obvious choice for me.) So much has changed since then. This August, New Jersey families are faced with much greater and much more complicated educational decisions. During the last six months, we have all been challenged in ways I could never have imagined. These challenges have forced us to grow personally, professionally, and educationally. An “expect the unexpected” mindset has become our new normal. Arguably, we have become more resilient and more reflective. As a result, many of us have repositioned our personal priorities. However, some priorities remain steadfast within Wall Township Public Schools.

As Horace Mann said, “Education, then, beyond all other devices of human origin, is the great equalizer of the conditions of men. The balance wheel of the social machinery.” To this point, we take seriously our responsibility to provide the highest quality education regardless of today’s challenges. We look forward to welcoming back you and your children to our campus in September. Together we will meet our present challenges by charting a course to success.

Dr. Frank Kasyan
Manasquan School District Superintendent of Schools
Belmar prepares for reopening

On behalf of the Belmar School District administration, faculty, and staff, we would like to extend a warm welcome to our students and their families as we begin the 2020-21 school year. We are looking forward to a productive partnership with you to ensure our children can achieve their highest potential in these unpredictable times. We are excited to see our students in person as we prepare to open the school building on September 2, 2020 after our closure in March due to COVID-19.

Our first and foremost priority is the safety, health and wellness of our students and staff. Belmar Elementary School is continuing to consult with state and local officials from the New Jersey Department of Health and the New Jersey Department of Education regarding the coronavirus [COVID-19] and its possible impact on student education. We have taken a proactive and collaborative approach to ensure our building is being properly maintained in accordance with health and safety standards.

We have been working hard to provide a comprehensive and positive learning experience for all students whether they are in-person or fully remote learners. While distance learning worked for our district as a whole last spring, we are committed to improving it this fall. We will be providing parent workshops on navigating Google Classroom and the various digital platforms that students will be utilizing during remote learning. All students will be able to take home a school issued Chromebook so that they will be working with the device that they are most comfortable with. Please check our website to see a full description of our Restart and Recovery Plan and our remote and in-person learning options.

“Inspired, United, Prepared, Soaring to Excellence.” Our motto represents the shared vision of our BES school family and is fostered by a leadership team that promotes a nurturing and academically challenging school environment.

Things are changing quickly in this climate. While we would love to “go back to normal,” our hope is that one day we will do that, and can change our plans to reflect that.

We thank you for all of your patience and cooperation during the past couple of months. We look forward to the start of 2020-21 new school year.

Sincerely,
Mr. David R. Hallman, Superintendent
Mrs. Sarah Wilton, Principal
Mrs. Lauren Vasile, Supervisor of Special Services

SUPERINTENDENT’S WELCOME — BRIELLE

Brielle Elementary prioritizes health, safety and wellness of all

Dear Students, Parents, Teachers, and Friends of the Brielle Blazers:

Welcome to the 2020-2021 school year. This new year presents us with many new challenges and opportunities at Brielle Elementary School. We are excited to welcome over 45 kindergarten students as well as over fifteen new students to our school! We are excited to see all of our Brielle Blazers in person as we prepare to open our school on September 2nd to our teachers and September 10th and 11th for our students.

Our top priority has always been the health, safety, and wellness to all of our students and staff. We continue to consult with local and state officials from the New Jersey Department of Education and the New Jersey Department of Health regarding the coronavirus and its impact on student education.

Our summer has been extremely busy, and quite productive as we readied for the upcoming school year. In addition to painting over fifteen classrooms and offices, we completed phase three of
SUPERINTENDENT’S WELCOME — BAY HEAD

Bay Head School Principal welcomes students back

Dear Bay Head School Families,

I want to officially welcome all of you to the 2020-2021 school year! Summer has come and gone and we must now move forward with many exciting changes to follow. The past months have been a trying time for all due to the impact of COVID-19 on public education. The Bay Head School students, parents and staff have accepted these challenges and are working together to do our very best to provide educational, social and emotional support for our children.

As we look toward the fall and reopening of school, the Bay Head School Board of Education, Staff and Administration has worked with the Department of Education and Board of Health to complete our Restart and Recovery Plan for Education. We understand that this is a fluid situation and things can and possibly will change very quickly. However, with planning and the shared goals of health, safety and academic support of our children we can and will do our best. Everything is progressing smoothly to a great opening of school on Tuesday, September 08, 2020.

I am privileged to have the opportunity to return again this school year as your principal and I feel honored to work with our highly qualified and dedicated staff, our wonderful students, and all of the supportive parents. Our Superintendent of Schools, Dr. Peter Morris, will also continue his role at the Bay Head School again this year. The elementary years are critical times of development for students and families and I look forward to working with all of you to make this school year successful.

We have some new staff members to welcome this year to the already FANTASTIC Bay Head School faculty. Mr. Keith Murphy will be teaching middle school social studies, Ms. Chelsea Kelton will be in middle school language arts and Mrs. Kim King will be the new K-8 art teacher. A huge shark welcome to all!

I’d like to invite you to continuously check the school website as this is the main source of updated communication and will serve as a resource tool for all upcoming events, student/parent handbook, important reminders and you can keep up with ‘Principal’s Shark Tank.’ Communication is key to success, and we will continue to encourage teachers and parents to stay connected via websites, phones call, and emails as well as Remind. We will continue to use our ‘One Call Now’ call system for reminders of upcoming events, important meetings and emergency closing information.

In closing, please enjoy the remaining days of summer. We enthusiastically anticipate the return of our SHARKS both in-person and virtually, along with the teachers and staff as they bring the Bay Head School alive! Please don’t hesitate to contact the Main Office or myself directly with any questions or concerns.

Fins Up,
Mr. Frank J. Camardo, Principal

SUPERINTENDENT’S WELCOME — POINT BEACH

A Return to School in Point Pleasant Beach

Dear Parents, Students, and Community Members,

I will admit it feels odd to write this welcome back letter at the end of July, five weeks before we are scheduled to reopen schools.

As we learned throughout the conclusion to last school year, it can be difficult to predict the path of this pandemic week to week. However, with cautious optimism, we announced at July meeting of the Point Pleasant Beach Board of Education our reopening plan for September.

The faculty and staff at The Beach are eager to see our students return to our schools, which have largely been dormant since March of last year. Quite simply, nothing matches the excitement of a September reopening of schools.

The plan we announced and have available on our district website outlines our pathway to a return in a safe and responsible way. Using a synchronous learning model, we are confident that we can meet the governor’s directive to reopen schools while simultaneously meeting the needs of our families who may prefer a remote learning option at this time.

Our full program of learning will be available at both schools, and their status as Future Ready Schools Silver Award winners combined with our high number of credentialed Apple Educators have positioned us well should we need to pivot to a full-remote option for all students at any point in the year.

The details of our Return to School plan are available on our website, www.ptbeach.com, and I encourage families to check our website often for the latest updates about our reopening.

Additionally, throughout August we will be pushing out important information to families via our social media and regular updates from our building principals.

While this is a remarkable moment in our lifetime, there is no denying that our schools are integral to our students’ happy and healthy development. We are committed to serving that purpose, and we excitedly anticipate the moment our students will return to school and bring our campus back to life. Our first day of school for students is September 8, 2020.

Please enjoy a healthy and happy conclusion to the summer, and I wish everyone a wonderful and inspiring school year. Thank you for your continued support of Point Pleasant Beach schools.

Sincerely,

William T. Smith, Ed.D.
HEIGHTS Superintendent welcomes students to strange new year

Dear Spring Lake Heights Families,

We hope your summer break has been one filled with relaxation and memorable experiences! Never in all of our experiences did we envision we would be welcoming you back to school with options of in-person and full remote learning. As you well know, the world is in the midst of the COVID-19 global pandemic and SLH has been working tirelessly to welcome our students back to the school building. To say that we were impressed with how the SLH community handled the emergency closing back in March and how supportive everyone has been through the past six months would be an understatement.

We will continue the SLH tradition of excellence this year while offering both in-person and full remote learning. We have well prepared the school for the return of students in a safe and healthy manner. We are meeting all guidelines set forth by Governor Murphy and are excited to see our students and staff once again occupying our building and being immersed in learning.

In addition to all of the planning for the reopening of the SLH school building, we have some exciting upgrades/renovations that have taken place as well. Around the exterior of our building, the large basketball courts underwent a complete reconstruction, we are in the process of building dugouts for our softball and baseball fields, and the entire building was power washed. In the interior, we have renovated our tech lab and media center into welcoming collaborative spaces. A huge thank you to our custodial team for doing the majority of the renovations and allowing us to complete this project in a very cost-effective manner. Lastly, our courtyard is up and running and ready to welcome students. Our raised beds currently are growing herbs, watermelons, broccoli, and tomatoes all with the help of Fulfill Food Bank. Throughout the spring and summer, SLH has donated over 100 pounds of salad greens and herbs grown right here in our courtyard to Fulfill.

A positive home-school connection is essential to the success of our students. We encourage you to stay actively involved in your child’s studies as well as the activities in which they participate. Your support is paramount to their success both in and out of school. We are fortunate to have numerous ways for you to stay in touch with the happenings of SLHS through our school website, Facebook, Twitter, and Instagram accounts. Please consider “following” these accounts in an effort to stay as up to date as possible. Additionally, we encourage you to stay involved with our incredible PTA which has been hard at work this summer planning fun and exciting activities for your children.

Our amazing custodial team has been working diligently all summer to keep the building in great shape while also preparing for the safe return of our students. Numerous “additional” tasks have been added to their normal summer workload and they continue to amaze us. Walls have been painted, floors shined, windows cleaned, and everything else scrubbed from top to bottom. We’d like to publicly thank our custodial team of Bert, Tim, Keith, and Ed for all of their hard work this summer and throughout the school year.

We want to also make sure that we thank the office staff for their dedication to our students, faculty, and the community. Their hard work ensures that SLHS is ready for a smooth opening each September and operates efficiently all year long.

As you can tell, there are many things to be excited about as we get closer to the 2020-21 school year. Overall, we look forward to the start of school as our district continues to embody our motto: Preparation. Pride. Possibilities. At SLH, the possibilities for our students are endless and we cannot wait to begin exploring them together. Until then, enjoy the rest of your summer!

The SLH Administrative Team,
John Spalthoff & Danielle Holter
SUPERINTENDENT’S WELCOME — POINT PLEASANT BOROUGH

Point Boro Schools gearing up for the year ahead

Greetings, Point Pleasant Borough Students and Families!

First and foremost, I’d like to welcome everyone back into our schools! I hope everyone took time over the summer break to relax and decompress after the many unique and unexpected obstacles we faced during the last four months of the 2019-2020 school year due to the COVID-19 pandemic. It is undeniable that we can expect another year of adversity ahead, however, we as a school community will conquer those challenges and come out stronger together.

As we gear up for the September 8 reopening of our schools, I can assure you that we are dedicated to providing the safest possible return for all. Our reopening plan was devised in accordance with the NJ Department of Education’s guidelines, The Road Back: Restart and Recovery Plan for Education (RRP). This plan provides districts with the information necessary to ensure that schools reopen safely and are prepared to accommodate students’ unique needs.

Based on analyses and recommendations from Board Members, administrators, teachers, parents and other key stakeholders, we concluded that the best re-entry model for all four of our schools is a Hybrid A/B Cohort Model that will utilize a combination of in-person and remote learning. This schedule will remain in effect for as long as local and state guidelines require. Additionally, parents also have the option to choose an all-remote learning plan for their child. Should either of these plans change, parents will be notified as soon as possible.

In preparation for the reopening, teachers and staff have worked hard over the summer, revising curricular units, developing assessments for September to identify where students are and ensuring a strong transition back into the classroom. They are taking the time to familiarize themselves with new technologies, tools and resources.

In the days leading up to the start of school, all faculty and staff will once again take part in professional development workshops. Training for our staff is vital in ensuring our students are provided with the best possible education, in-person and remotely. It is our goal as educators to support and guide our students through this new journey.

Our custodial staff members are also working tirelessly to ensure a safe and clean learning environment for our students. Our buildings, classrooms, hallways, restrooms and all high-touch surfaces are regularly disinfected, and our classrooms are prepared to accommodate social distancing measures. As always, we consider the health of our students and teachers to be of utmost priority.

In closing, I’d like to emphasize the importance of communication during the 2020-2021 school year. Parents, should you have any questions or concerns, please reach out to your student’s teachers and building administrators.

I highly appreciate your feedback, support and understanding throughout this process.

On behalf of Central Administration, the Board of Education, our faculty and staff, I’d like to extend you my warmest welcome to the 2020-2021 school year! Enjoy the remaining weeks of summer. We’ll see you on September 8!

Sincerely,
Vincent S. Smith
Superintendent of Schools

SUPERINTENDENT’S WELCOME — ST. ROSE

St. Rose Grammar School to welcome back students

I want to thank our entire Monmouth County community for their patience, support and prayers. It has been an integral part in helping create the roadmap for the “Return to School.” Your confidence, faith and positivity is greatly appreciated and a main reason why new families want to join the SRGS community.

We commit to doing our best in keeping the academic and spiritual bar high in these unique times. Directions, rules and regulations from both the state and the Diocese continue to be ongoing...our new “Co-vid Co-sign”...Focus, Faith and Flexibility.

Our goal is to provide face-to-face [with protection] instruction in the classroom five days a week with specific parameters set by the state to help protect us from COVID-19. This model has been chosen not only to engage the students’ academic progress, but also to enhance their social, emotional and spiritual growth as well.

Academically, we plan to make the learning experience an engaging one. Students who come to school will once again experience a much needed in-person classroom interaction. Live instruction through Google Meet and user friendly platforms like Google Classroom will be available to students who are kept home by parental choice or in the event that a government mandated remote learning is reinstated.

The live instruction will provide an organized format, similar to in-person learning. Teachers in each grade level will share the details of their specific format shortly. Either way, our teachers have been trained to toggle our students’ learning experience at any given time.

We ask for your focus, faith and flexibility as we prepare the students for a competitive future, confidence in their faith and core Christian values in their hearts. We are in this together and will thrive as a St. Rose Family.

Peace in Christ,
Mr. Guito
Principal

Is your child struggling in school?
We can help!

We offer programs for:
Articulation
Tongue thrust
Improving language and reading comprehension
Phonemic awareness (building awareness of speech sounds)
Math word problems
Fine motor skills

Our speech pathologists and occupational therapist provide expert instruction and your child will have fun!

The cost may be covered by your health insurance.
We accept most insurance plans.
